

Trax -- Overview & Fall Schedule - Our New After-School Enrichment Option

The Cabin John PTSA, working with Tilden Middle School and Trax, is pleased to present our new after-school enrichment and activities program this year. **Trax** offers a wide range of individual and team sports, visual and performing arts and many other unique “special interest” pursuits (intellectual and otherwise).

The attached Fall schedule is just the tip of the iceberg in terms of what's possible and what's coming! There will also be extensive academic support available each day (homework help from certified teachers, guidance with study and organizational skills, time management, etc. and one-on-one tutoring). These offerings are scheduled so that our students can fully plug into CJMS school-sponsored clubs and sports (which will be listed on the school website in future weeks) AND take advantage of the incredible options through Trax.

The Monday, Wednesday and Friday options will be housed at Tilden and fully available to CJMS with transportation provided by Trax. We expect to be providing Tuesday and Thursday options at CJMS soon. When these days are added we'll be sure to get you the expanded schedule. There will also be new options for their Winter and Spring offerings.

Enrollment has started and you can get more info regarding activities, cost, transportation, etc. from Darren Finder at Trax. He can be reached at 301.770.4422 x110 or by email at darren@trax678.com. Please direct inquires to Darren and not me or the CJMS office—they've got their hands full getting ready for the start of school!
